

## Assistance to Victims

A person who was victimized will be encouraged to seek counseling at a rape crisis center nearby and to maintain all physical evidence until such a time when that person can be properly transported to a hospital or rape crisis center for proper treatment.

A victim of a sexual crime has the option of reporting this crime to the school director or to report it directly to the police or calling 911 and search for professional assistance from the emergency agencies. If requested, the school director will call the police or 911.

CES College does not have accessibility to professional counseling, mental health or otherwise, students and employees are encouraged to seek such professional assistance at the nearest hospital or health care centers.

CES College will offer the victim of a sexual crime any available options to change the academic schedule as much as possible to the benefit of the victimized person.

The list of resources is posted on CES College website and is available at the school office.
